INDUSTRIAL COMPRESSED AIR SOLUTIONS

Sales | Parts | Rental | Servicing | Air Audits | Leak Detection

SULLAIR

a Bud Group Company

Established in 1984, the Goscor Group has been representing and suppling the highest-quality equipment in the Southern African market for almost 40 years.

OUR EQUIPMENT OFFERING CONSISTS OF:

- Rotary-Screw Compressors
- Oil-Free Compressors
- Diesel-Powered Portable Compressors
- Vacuum Pumps
- Downstream Equipment and Tools

SERVICE OFFERING

- Equipment Sales
- Servicing
- Air End Overhauls and Refurbishment
- Air Compressor Complete Overhaul and Refurbishment
- Parts
- Rental
- Air Audits and Leak Detection

SULLAIR

For more than 55 years, Sullair has been at the leading edge of compressed air solutions. Sullair were one of the first to execute rotary screw technology in air compressors, and their machines are renowned throughout the world for their legendary durability and reliability. As the industry moves forward, Sullair remains at the forefront with quality people, innovation, and air compressors that are built to last.

Leading-edge compressed air solutions for a variety of industries and applications. Goscor Compressed Air offers you a comprehensive range of reliable and affordable compressed air solutions.

We understand that it is of utmost importance to our customers to have compressors which can manage heavy use with ease, and it is our goal to offer versatility, efficiency, safety and performance all at an affordable cost.

SCREW COMPRESSORS

We offer a wide range of screw compressors that are perfect for various applications and industries. Our screw compressors are efficient, dependable, easy to operate and require minimal maintenance intervals. Most importantly though, they offer superior performance. We offer the Sullair LS series, ShopTek, and AS series ranges of screw compressors.

REFRIGERATED AIR DRYERS

The Sullair Refrigerated Air Dryer performs reliably to maximize the quality of your air. Every unit is specially designed according to its flow with the right components to ensure low energy consumption. Other highlights of this durable equipment include a quick start time, efficient operation, and easy access for service and maintenance.

DESICCANT AIR DRYERS

The Sullair Desiccant Regenerative Dryer family combines the proven benefits of desiccant drying with the most advanced options and monitoring technology — providing dry compressed air for the most critical applications.

PORTABLE COMPRESSORS

At Goscor Compressed Air, we stock a wide selection of Sullair portable air compressors which are offer a range of excellent features. Suitable for drilling operations, sandblasting operation, as part of our portable range we offer a 1550 OIL Free Diesel driven unit complete with aftercooler for oil and gas, and process operation air.

OIL-FREE COMPRESSORS

In many operations, the compressed air comes into contact with the product in the manufacturing process. When air purity is critical — oil free air is essential. Oil Free compressors eliminate potential contamination as no oil or lubricant is introduced into the air compression process. Reduced risk of contamination helps improve your business operations and profitability.

VERTICAL RECEIVERS

An air receiver forms part of a complete compressed air system. Our receivers offer temporary storage when there is a peak in demand in the system, thereby assisting demand and optimising efficiency.

ACCESSORIES

Goscor Compressed Air offers a variety of compressor accessories. From vacuum pumps, pneumatic tools and downstream equipment, we have your business needs covered to ensure your equipment uptime.
